

# Subject Index to Volume 31

## A

A23187: *see* Calcium ionophore  
 A6 cells, ouabain binding, sodium-independent effects of aldosterone on, C899  
 Acetylcarnitine, muscle during exercise, low glycogen effects, C975  
 Acetylcholine, release, magnetic field influence on, neuromuscular junction, C1418  
 Acid-base balance, sodium-hydrogen exchange, hydrogen delivery and, IEC-6 cells, C164  
 Acidosis  
   intracellular calcium, sodium, and hydrogen, contraction and, ventricular myocytes, C348  
   sodium cyanide, calcium ions and intracellular pH during, C628  
 Actin  
   condensation of, serum protein, C1403  
   depolymerization, ADH-induced, bladder granular cell (toad), C672  
   expression, interleukin-1 $\beta$  alteration of, thoracic aorta, C828  
   filament lengths, distribution, measured by fluorescence microscopy, C569  
   myosin interaction, polylysine activation of, smooth muscle, C1446  
 Actinomycin D, aldosterone effects on ouabain binding and, A6 cells, C899  
 Acyl transferase, lipid A activation, glomerular mesangial cells, C328  
 Adenosine  
   extracellular, ethanol-induced increase, hepatocytes, C1175  
   goblet cell degranulation, tracheal epithelium, C1313  
   receptors: *see* Receptors  
 Adenosine diphosphate  
   goblet cell degranulation, tracheal epithelium, C1313  
   tyrosine phosphorylation induced by, platelets, inhibition by sodium nitroprusside, C701  
 Adenosine monophosphate, cyclic  
   action of methylisobutylxanthine, annexin I regulation, adipogenesis, C91  
   adenosine receptor effects on, mesangial cells, C840  
   cellular levels, endothelium, hypoxia effects, C546  
   chloride channels activated by, CFTR-transfected cystic fibrosis pancreatic epithelial cells, C1154  
   chloride conductance activated by, colonic cell line, C251  
   cystic fibrosis airway epithelial cells, C1273  
   chloride transport and, polar airway, C23  
   cystic fibrosis effects, reversed anion selectivity, C32  
   endocytosis and, T84 cells, C752  
   hyperoxia effects, MDCK epithelial cells, C358  
   ion currents stimulated by, *Xenopus* oocytes, C783  
   messenger systems, intracellular pH regulation, osteoblastic cells, C111

synergism between ATP, signal transduction in myocytes, C128  
 transepithelial anion selectivity, T84 cells, C555  
 Adenosine triphosphate  
   activation of cation-permeable pathway, parotid acinar cells, C934  
   anoxic cell damage, sensitivity of AS-30D hepatoma cells and normal hepatocytes, C1384  
   glucose transport, inhibition of oxidative metabolism and, C527  
   goblet cell degranulation, tracheal epithelium, C1313  
   organic anion transport dependent on, erythrocyte membrane vesicles, C104  
   potassium channels sensitive to, basal coronary vascular tone and, C1220  
   product release, mucous granules (mollusk), C760  
   purinergic receptors, T84 cells, C67  
   shear stress effects, endothelial calcium, C384  
   synergism between cAMP, signal transduction in myocytes, C128  
 ADH: *see* Antidiuretic hormone  
 Adipocytes  
   brown, differentiation, adult, C1018  
   3T3-L1, annexin I regulation, adipogenesis, C91  
 Adipogenesis, regulation of annexin I in, C91  
 Adrenal gland  
   zona glomerulosa cells  
     calcium channels and cytosolic calcium in, C598  
     intracellular pH regulation in, C182  
 Aging,  $\alpha_1$ -adrenergic receptor G protein coupling, parotid gland, C1181  
 AIB: *see*  $\alpha$ -Aminoisobutyric acid  
 Airway  
   epithelia, bradykinin effects on sodium chloride transport, C644  
   epithelial cells, chloride conductance pathways, cystic fibrosis, C1273  
 L-Alanine, cotransport, protein kinase C inhibitors and regulatory volume decrease after, C950  
 Aldose reductase, osmoregulated gene transcription, kidney, C776  
 Aldosterone  
   receptors: *see* Receptors  
   sodium-independent effect of, ouabain binding in A6 cells, C899  
 Alkalinization, dome formation and, hyperoxia effects, MDCK epithelial cells, C358  
 Amiloride  
   aldosterone effects on ouabain binding and, A6 cells, C899  
   cloning and expression, sodium-hydrogen antiporter cDNA, C1069  
   conductance sensitive to, uncoupled sodium transport and (turtle), C1089  
   hydrogen transport and, medullary thick ascending limb, kidney, C963  
   intracellular pH, salt gland cells (duck), C221

nasal epithelium, bradykinin effects on sodium chloride transport, C644  
 sodium ion conductance, alveolar pneumocytes, C1228  
 Amino acids  
   influx, muscle fibers (barnacle), C1485  
   transfer, oxidative stress and, endothelial cells, C50  
   transport, insulin stimulation, placental trophoblast, C834  
 $\alpha$ -Aminoisobutyric acid, uptake, insulin stimulation of, placental trophoblasts, C834  
 2-Amino-5-phosphonovaleric acid, cytosolic calcium via G proteins and, hippocampal neurons, C870  
 4-Aminopyridine, hypoxic inhibition, potassium channels, C882  
 ANF: *see* Atrial natriuretic factor  
 Angiogenesis, connexin 43 expression, coupling and, endothelial cells, C1246  
 Anions  
   organic, ATP-dependent transport, erythrocyte membrane vesicles, C104  
   reversed selectivity, cystic fibrosis and, C32  
   transepithelial selectivity, T84 cells, C555  
   transporters, chemical probes for, cell membranes, C803  
 Anisotropy, diamagnetic, acetylcholine release at neuromuscular junction, C1418  
 Annexin I, regulation, adipogenesis, C91  
 ANP: *see* Atrial natriuretic peptide  
 Antidepressants, transport, placental brush-border membrane vesicles, C1189  
 Antidiuretic hormone: *see also* Vasopressin  
   actin depolymerization induced by, bladder granular cell (toad), C672  
   permeability, apical membranes, bladder granular cells (toad), C1109  
 Aorta  
   endothelin-1 gene, transcriptional regulation by TNF- $\alpha$ , C854  
   phospholipase D, activation by endothelin-1, C941  
   thoracic, actin expression, interleukin-1 $\beta$  alteration of, C828  
 Arachidonic acid, signal transduction, erythropoietin receptor, C1197  
 AR42J cells, agonist-evoked intracellular calcium oscillation in, regulation by calcium and barium, C1125  
 Astrocytes  
   glial cultures, ANP receptors in, C1134  
   ZO-1 detection in, C461  
 Atherosclerosis, PDGF production and monocyte adhesion, thrombin stimulation, endothelial cells, C1199  
 ATPase: *see* Calcium-ATPase; Hydrogen-ATPase; Magnesium-ATPase; Sodium-potassium-ATPase  
 ATP: *see* Adenosine triphosphate  
 ATP-synthase, mitochondrial activity, hypoxic cardiomyocytes, C1297

Atrial natriuretic factor, pro-, binding and aggregation by calcium, C907  
 Atrial natriuretic peptide, receptors: *see* Receptors  
 Azide, glucose transport by, biphasic stimulation of, C527

## B

Bafilomycin A<sub>1</sub>, hydrogen transport and, medullary thick ascending limb, kidney, C963  
 Barium, regulation, agonist-evoked intracellular calcium oscillation, AR42J cells, C1125  
 BAY K 8644, desensitization induced by, L-type calcium channel, C621  
 Betaine, aldose reductase gene transcription, kidney, C776  
 Bicarbonate, anion transporters, chemical probes for, cell membranes, C803  
 Bile acids, ATP-dependent transport, erythrocyte membrane vesicles, C104  
 Biotin, transport, placenta, C302  
 2',7'-Bis(carboxyethyl)-5,6-carboxyfluorescein  
   metabolic inhibition, calcium and intracellular pH, C628  
   sodium-hydrogen exchange and hydrogen delivery, intracellular pH dependence of, IEC-6 cells, C164  
 2',7'-Bis(2-carboxyethyl)-5(6)-carboxyfluorescein, intracellular pH, salt gland cells (duck), C221  
 Blood-brain barrier, aldosterone receptors, microvessels, C156  
 Blood flow, coronary, ATP-sensitive potassium channel and, C1220  
 Blood vessels, endothelial cells, coupling and connexin 43 expression in, C1246  
 B lymphocyte differentiation cofactor, substance P, C537  
 Bradykinin  
   calcium-activated potassium responses to, sensory neurons and F-11 cells, C453  
   intracellular calcium pool, regulation of calcium entry and, endothelial cells, C171  
   sodium and chloride transport, nasal epithelium, C644  
 Brain, microvessels, aldosterone receptors in, C156  
 Brain natriuretic peptide, receptors, neuronal and astrocyte glial cultures, C1134  
 4-Bromo-A23187, calcium-dependent chloride secretion and, T84 epithelial cells, C15  
 Brown fat  
   differentiation, adult, C1018  
   metabolism, potassium channel block effects, C678  
 Brush-border membrane vesicles  
   cloning and expression, sodium-hydrogen antiporter cDNA, C1069  
   placental, dopamine transport in, C1189  
 Bumetanide, sodium-potassium-chloride cotransport sensitive to, vascular endothelial cell volume, C436  
 Buthionine sulfoximine, cytostasis induced by, cell growth and, C122

## C

Caco-2 cells, chloride conductance, cAMP-activated, C251  
 Cadmium, modulation of  $I_K$  by, ventricular myocytes, C75  
 Caffeine, excitation-contraction coupling, malignant hyperthermia (pig), C422  
 Calbindin, facilitated diffusion of calcium, intestinal calcium absorption and, C517  
 Calcium  
   absorption, intestinal, calbindin effects, C517  
   activation, potassium channel, trypsin effects, planar phospholipid bilayers, C971  
   adenosine receptor effects on, mesangial cells, C840  
   binding and aggregation, proANF, C907  
   cellular metabolism, epidermoid carcinoma cells, C635  
   chloride secretion dependent on, phorbol ester effects, T84 epithelial cells, C15  
   cytosolic  
     calcium channels and, zona glomerulosa cells, C598  
     NMDA increase, hippocampal neurons, C870  
   cytosolic free, fluid shear stress modulation, vascular endothelial cells, C384  
   endothelin-induced responses, vascular smooth muscle cells, C148  
   entry  
     extracellular, regulation in endothelial cells, C171  
     thapsigargin stimulation of, vascular smooth muscle cells, C1258  
   extracellular, influx, inositol trisphosphates and, oocytes, C1456  
   facilitated diffusion by calbindin, intestinal calcium absorption and, C517  
   flow-induced transients, single endothelial cells, C1411  
   flux  
     acetylcholine release at neuromuscular junction, C1418  
     sodium-calcium exchange-dependent, ventricular cells, C1149  
   inactivation, inward rectifier in RBL-2H3 cells, C84  
   intracellular  
     agonist-evoked, regulation by intracellular calcium and barium, AR42J cells, C1125  
     contraction and, acidosis in ventricular myocytes, C348  
     5-HT<sub>2</sub> receptor mRNA in smooth muscle cells, C309  
     hypertension effects on heart cell relaxation, C980  
     pH changes and, salt gland cells (duck), C221  
     pH regulation, osteoblastic cells, C111  
     potentiation of myocyte response to ATP, C128  
   myoplasmic concentration, cross-bridge phosphorylation, carotid media (swine), C1388  
   oscillations  
     calcium-ATPase inhibition of, parotid acinar cells, C656  
     interstitial cells, colon, C589

potassium channels activated by, response to bradykinin, sensory neurons and F-11 cells, C453  
 regulation of calcium current dependent on, gastric smooth muscle, C691  
 release, cardiac myocytes, confocal microscopy, C731  
 sensitivity, smooth muscle, GTP $\gamma$ S-dependent regulation, C405  
 signaling, thromboxane A<sub>2</sub> response, CHRF-288 cells, C991  
 uptake  
   microvillous membrane of placenta, C789  
   volume-activated, kidney cells, C339  
 Calcium-ATPase  
   developmental regulation, sarcoplasmic reticulum, C614  
   inhibition of calcium oscillations, parotid acinar cells, C656  
   thapsigargin effects, vascular smooth muscle cells, C1258  
 Calcium-ATPase inhibitors, extracellular calcium entry, regulation endothelial cells, C171  
 Calcium channels  
   cytosolic calcium and, adrenal zona glomerulosa cells, C598  
   endothelin-induced responses, vascular smooth muscle cells, C148  
   gating, citrate alteration of, ventricular myocytes, C191  
   L-type  
     activity, protein kinase C effects, pituitary cells, C1211  
     F-induced desensitization, C621  
   progesterone effects, myometrial cells, C293  
   voltage activated, AR42J cells, C1125  
   voltage-gated, vascular smooth muscle cells, C1083  
 Calcium currents, regulation, calcium-dependent, gastric smooth muscle, C691  
 Calcium ionophore, effects, endothelial ICAM-1 induction, C365  
 Calcium ions  
   calmodulin and, regulation of putrescine uptake, gastrointestinal epithelial cells, C1356  
   intracellular free, protein kinase C and, GH<sub>3</sub> pituitary cells, C1211  
   metabolic inhibition, calcium ions and intracellular pH during, C628  
 Calcium ion currents, progesterone effects, myometrial cells, C293  
 Calmodulin, calcium and, regulation of putrescine uptake, gastrointestinal epithelial cells, C1356  
 Calorimetry, brown fat, potassium channel block effects, C678  
 cAMP: *see* Adenosine monophosphate, cyclic  
 Carbachol, calcium-dependent chloride secretion and, T84 epithelial cells, C15  
 Carbohydrates, metabolism, low glycogen effects, muscle during exercise, C975  
 Carboxy-seminaphthorhodafuor-1, intracellular pH and resting tension, ventricular muscle and myocytes, C316  
 Cardiac cells: *see also* Heart cells;  
   Myocytes  
     sodium channels in, tetrodotoxin-insensitive, C724  
 Cardiomyocytes: *see* Myocytes

- Cations, organic, transcellular transport of, LLC-PK<sub>1</sub> cells, C59
- Cation channels  
calcium-activated nonselective, apical membrane, vestibular dark cells (gerbil), C1423  
nonselective, PDGF-activated, cell proliferation and, C1464
- Cation-permeable channel, activation of, ATP, parotid acinar cells, C934
- Cells: *see also* specific cell  
adhesion, modulators of cell function, C1341  
shrinkage, G protein stimulation of, sodium-hydrogen exchange, C533  
swelling, membrane conductance and, heart, C1057  
volume: *see* Volume
- CFTR: *see* Cystic fibrosis transmembrane conductance regulator
- cGMP: *see* Guanosine monophosphate, cyclic
- Chemoattraction, precontact sperm-egg communication, role in fertilization, C1095
- Chemotaxis, precontact sperm-egg communication, role in fertilization, C1095
- Chloride  
anion transporters, chemical probes for, cell membranes, C803  
conductance  
alternate pathways for, cystic fibrosis airway epithelial cells, C1273  
basolateral membrane, retinal pigment epithelium (toad), C374  
cAMP-activated, colonic cell line, C251  
fluid transport and, corneal endothelium, C1167  
indicators, synthesis of, C243  
permeability: *see* Permeability
- secretion  
calcium-dependent, phorbol ester effects, T84 epithelial cells, C15  
cAMP-activated, pancreatic epithelial cells, C1154  
colonic epithelium, C1392  
protein kinase regulation of, T84 cells, C1304  
purinergic receptor activation of, T84 cells, C67  
regulated endocytosis, T84 cells, C752
- transport  
bradykinin effects, nasal epithelium, C644  
hormonal regulation of, polar airway, C23
- Chloride channels  
cAMP-stimulated, *Xenopus* oocytes expressing CFTR cRNA, C783  
cGMP-dependent protein kinase regulation of, T84 cells, C1304  
DIDS-binding protein, T84 cells, C136  
patch clamping, ciliary epithelial cells, C501  
volume-sensitive, cardiac, cell swelling effects, C1057
- Chondrocytes, growth plate, delayed rectifier potassium current in (chicken), C1335
- Citrate, calcium channel gating and, ventricular myocytes, C191
- Cocaine, transport, placental brush-border membrane vesicles, C1189
- Colon  
epithelium, potassium and chloride secretion, C1392  
interstitial cells, calcium oscillations in, C589
- Colonic cells, transepithelial anion selectivity of, C555
- Colony-stimulating factor, macrophage, regulation by peptide growth factors, liver fat-storing cells, C876
- Computer program, calibration, ion-selective microelectrodes, C1324
- Connexin 43, expression, coupling and, endothelial cells, C1246
- Contractile function, muscle fatigue, semitendinosus (frog), C1500, C1507
- Cornea, endothelium, fluid transport, chloride effects, C1167
- Corneal endothelial cell monolayers, fluid transport across, C98
- Coronary artery, calcium-activated potassium channels in, U46619 inhibition of (pig), C708
- Corticosteroids, receptors: *see* Receptors
- Coupling  
connexin 43 expression and, endothelial cells, C1246  
excitation-contraction  
carotid, cross-bridge phosphorylation in (swine), C1388  
malignant hyperthermia (pig), C422  
stimulus-secretion, calcium inactivation of inward rectifier in, C84
- Cross-bridge regulation, steady-state dependence of stress, carotid media (swine), C1388
- Current, short-circuit, verapamil blockade of, larval skin (frog), C1161
- Cyclic strain, stimulation, inositol triphosphate turnover, C956
- Cycloheximide, aldosterone effects on ouabain binding and, A6 cells, C899
- Cyclopiazonic acid, calcium oscillations and, parotid acinar cells, C656
- Cystic fibrosis  
airway epithelial cells, chloride conductance pathways, C1273  
cGMP-dependent protein kinase regulation, chloride channel, T84 cells, C1304  
distinct cell types, sweat gland secretory coil, C287  
sweat duct cells, reversed anion selectivity in, C32  
transmembrane conductance regulator, pancreatic epithelial cells, C1154  
transmembrane regulator, antibodies against, C396
- Cystic fibrosis transmembrane conductance regulator, cRNA, cAMP-stimulated ion currents in oocytes, C783
- Cystine, uptake, glutathione levels and, endothelial cells, C50
- Cytochrome oxidase, mRNA distribution, hybridization studies, muscle, C1
- Cytokines  
nitric oxide production and, hepatocytes, C1077  
transcriptional regulation, endothelin-1 gene, C854
- Cytoskeleton  
capping induced by, lymphocyte adhesion and, C916  
mRNA distribution, intracellular, C1
- Cytostasis, buthionine-sulfoximine-induced, cell growth and, C122

## D

- Deoxygenation meter, exercise-induced desaturation, quadriceps muscles, C766
- Deoxyribonucleic acid  
replication, lithium effects, pancreatic  $\beta$ -cells, C391  
synthesis, without cell division, EGF induction of, C578
- Depolarization, stretch-induced, vascular smooth muscle cells, C1083
- Development: *see also* Growth; Maturation  
hormonal and ontogenetic regulation, four serpin genes, C1144  
increase in potassium current and, ventricular myocytes, C1266  
regulation of gene expression during, sarcoplasmic reticulum, C614
- Dexamethasone, skeletal muscle atrophy induced by, mechanical stimulation, C1471
- Dextran, cell-permeable Cl-sensitive fluorescent indicator, synthesis of, C243
- Diabetes mellitus, lithium mitogenicity, pancreatic  $\beta$ -cells, C391
- Diacylglycerol  
lipid A activation, glomerular mesangial cells, C328  
signal transduction, erythropoietin receptor, C1197  
turnover, cyclic strain stimulation of, C956
- Diaphragm, neonatal and adult, high-fat diet effects, C282
- Diet: *see* Feeding
- 4,4'-Diisothiocyanostilbene-2,2'-disulfonic acid  
basal membrane chloride conductance, retinal pigment epithelium (toad), C374  
intracellular pH, salt gland cells (duck), C221
- 4,4'-Diisothiocyanostilbene-2,2'-disulfonic acid, binding protein, T84 cells, C136
- Diuretics, loop, sodium-potassium-chloride cotransport, rectal gland (shark), C1000, C1009
- Dopamine, active transport, placental brush-border membrane vesicles, C1189

## E

- Ectonucleotidase, cellular calcium metabolism, epidermoid carcinoma cells, C635
- Edema, pulmonary, high-altitude, endothelial monolayer permeability and, C546
- EGF: *see* Epidermal growth factor
- Endocytosis  
regulated, chloride secretory epithelial cell line, C752  
sodium-potassium-ATPase isoforms, regulation, oocytes, C1520
- Endoplasmic reticulum, plasma membrane, sodium-potassium-ATPase processing in, C470
- Endosomes, stress-induced alterations, C1031

- Endothelial cells**  
 connexin 43 expression, coupling and, C1246  
 extracellular calcium entry, regulation of, C171  
 inositol trisphosphate and diacylglycerol turnover, cyclic strain stimulation of, C956  
 oxidative stress exposure, cystine uptake and glutathione levels, C50  
 single, flow-induced calcium transients, C1411  
 sodium-potassium-chloride cotransport regulation, C436  
 vascular, fluid shear stress modulation of calcium, C384
- Endothelin, calcium responses induced by, vascular smooth muscle cells, C148**
- Endothelin-1**  
 activation of phospholipase D, aorta, C941  
 arterial muscle stimulated by, staurosporine effects, C862  
 gene, transcriptional regulation by TNF- $\alpha$ , C854
- Energy metabolism**  
 enzymes of, neonatal and adult muscle, C282  
 low glycogen effects, muscle during exercise, C975
- Epidermal growth factor, DNA synthesis and, aortic smooth muscle cells, C578**
- Epidermoid carcinoma cells, cellular calcium metabolism, P<sub>2</sub> purinergic receptors and, C635**
- Epinephrine, potassium and chloride secretion, colonic epithelium, C1392**
- Epithelial cells**  
 airway, chloride conductance pathways, cystic fibrosis, C1273  
 ciliary, whole cell patch clamping, during anisomotic swelling, C501  
 gastrointestinal, calcium/calmodulin regulation of putrescine uptake, C1356  
 T84: *see also* T84 cells  
 calcium-dependent chloride secretion, phorbol ester effects, C15  
 chloride secretion, purinergic receptor activation of, C67  
 two distinct types, sweat gland secretory coil, C891
- Epitrochlearis, glucose transport, exercise training effects, C9**
- Erythrocyte membrane vesicles, organic anions, ATP-dependent transport, C104**
- Erythrocytes**  
 cation cotransport in, <sup>23</sup>Na-NMR study of, C1292  
 magnesium-deficient, susceptibility to oxidative stress and (hamster), C1371  
 volume-responsive sodium and potassium transport, volume-activated, C418
- Erythropoiesis, signal transduction, activation of phospholipases A<sub>2</sub> and C, C1197**
- Erythropoietin, production, phorbol ester inhibition of, hepatoma cells, C1204**
- Ethanol, metabolism, nucleoside uptake and, extracellular adenosine in hepatocytes, C1175**
- N-Ethylmaleimide, hydrogen transport and, medullary thick ascending limb, kidney, C963**
- Exercise**  
 desaturation induced by, quadriceps muscles, C766  
 endurance training, glutamine synthetase expression and, skeletal muscle, C214  
 glutamine synthetase expression and, red skeletal muscles, C214  
 low glycogen effects, carbohydrate and energy metabolism, muscle, C975  
 skeletal muscle atrophy and, glucocorticoid-induced, C1471  
 training, glucose transport and, skeletal muscle, C9
- Exocrine cells, distinct types, sweat gland secretory coil, C287**
- Exocytosis**  
 goblet cell degranulation, tracheal epithelium, C1313  
 low molecular mass GTP-binding proteins, subcellular fractions of pancreas, C493
- Extensor digitorum longus muscle, neonatal and adult, high-fat diet effects, C282**
- F**
- F-actin filaments, factors affecting movement, skeletal muscle heavy meromyosin, C714**
- Fasting, feeding and, lipolytic activity at hepatic subcellular sites, C1102**
- Fat-storing cells, liver, macrophage colony-stimulating factor and, C876**
- F-11 cells, calcium-activated potassium channel response, bradykinin, C453**
- Feeding**  
 fasting and, lipolytic activity at hepatic subcellular sites, C1102  
 high-fat diet, metabolic response to, neonatal and adult muscle, C282  
 low-carbohydrate diet, metabolic response to, neonatal and adult muscle, C282
- Femoral artery, L-type calcium channel, F-induced desensitization, C621**
- Fertilization, precontact sperm-egg communication and, C1095**
- Fetus: *see also* Placenta**  
 nutrition, calcium uptake, microvillous membrane of placenta, C789
- Fibroblasts**  
 cell-permeable Cl-sensitive fluorescent indicators, synthesis of, C243  
 proliferation, inhibition by PDGF-activated nonselective cation channels, C1464
- Fibronectin, skeletal muscle atrophy and, glucocorticoid-induced, C1471**
- Flufenamic acid, PDGF-activated nonselective cation channel and, cell proliferation, C1464**
- Fluid**  
 follicular, precontact sperm-egg communication and, C1095  
 transport, corneal endothelial cell monolayers, C98
- Fluoride, desensitization induced by, L-type calcium channel, C621**
- Force generation, kinetics, skinned soleus muscle fibers, C1239**
- Forskolin, cystic fibrosis effects, reversed anion selectivity, C32**
- Fura-2**  
 calcium oscillations and, parotid acinar cells, C656  
 flow-induced calcium transients, endothelial cells, C1411  
 metabolic inhibition, calcium and intracellular pH, C628
- G**
- Ganglia, dorsal root, potassium channel response to bradykinin, C453**
- Gangliosides, modulators of cell function, C1341**
- Gastrocnemius muscle, sepsis effects, protein synthesis, C1513**
- Gene expression**  
 cell-specific, transgenic technology, C261  
 sarcoplasmic reticulum, developmental regulation of, C614  
 SM1 and SM2 myosin isoforms, vascular smooth muscle, C607
- Genital tract, female, precontact sperm-egg communication and, C1095**
- Glibenclamide, ATP-sensitive potassium channel, coronary flow and, C1220**
- Glucocorticoids**  
 glutamine synthetase expression induced by, exercise effects, red skeletal muscle, C214  
 receptors: *see* Receptors  
 skeletal muscle atrophy induced by, mechanical stimulation, C1471
- Glucose**  
 transport  
 enhancement, oxidative metabolism and, C527  
 exercise training effects, skeletal muscle, C9  
 intestinal, expression of GLUT-5, C795  
 oxygen and, muscle cells, C682  
 GLUT-1, glucose transport, inhibition of oxidative metabolism, C527  
 GLUT-5, expression and localization, intestinal glucose transporter, C795  
 Glutamate, uptake, oxidative stress and, endothelial cells, C50  
 L-Glutamate, influx, muscle fibers (barnacle), C1485  
 Glutamine synthetase, expression, exercise inhibition of, red skeletal muscle, C214
- Glutathione**  
 depletion, buthionine sulfoximine-induced cytoskeleton and, C122  
 levels, cystine uptake and, endothelial cells, C50  
 oxidized, ATP-dependent transport, erythrocyte membrane vesicles, C104
- Glycogen, low, carbohydrate and energy metabolism with, muscle during exercise, C975**
- Glycogenolysis, carbohydrate and energy metabolism in, muscle during exercise, C975**
- Glycosphingolipids, modulators of cell function, C1341**
- Goblet cells**  
 colonic epithelium, potassium and chloride secretion, electron microprobe analysis, C1392  
 degranulation, tracheal epithelium, C1313

- Golgi complex, plasma membrane, sodium-potassium-ATPase processing in, C470
- G proteins
- $\alpha_1$ -adrenergic receptor, altered coupling in parotid gland, during aging, C1181
  - cell differentiation, intestinal crypt-villus axis, C1478
  - NMDA increases cytosolic calcium via, hippocampal neurons, C870
  - phosphoryl, subcellular fractions of pancreas, C493
  - stimulation of sodium-hydrogen exchange, cell shrinkage and, C533
- Granular cells
- urinary bladder
    - ADH-induced actin depolymerization in (toad), C672
    - apical membranes, water and nonelectrolyte permeabilities (toad), C1109
- Granulocyte-macrophage colony-stimulating factor, phorbol ester inhibition of, tyrosine phosphorylation and, C276
- Growth: *see also* Development; Maturation
- brown adipocyte differentiation, adult, C1018
  - cell
    - buthionine sulfoximine-induced cytoskeleton and, C122
    - myosin isoforms, vascular smooth muscle, C607
    - smooth muscle, 5-HT<sub>2</sub> receptor mRNA in smooth muscle cells, C309
- Growth factor
- basic fibroblast, regulation of macrophage colony-stimulating factor, liver cells, C876
  - downregulation, vascular smooth muscle thromboxane receptors, C927
- Growth hormone, regulation, four serpin genes, C1144
- Growth plate, chondrocytes, delayed rectifier potassium current in (chicken), C1335
- GTP $\gamma$ S: *see* Guanosine
- 5'-O-(3-thiotriphosphate)
- Guanosine monophosphate, cyclic
- ANP actions and, neuronal and astrocyte glial cultures, C1134
  - protein kinase regulation dependent on, T84 cells, C1304
  - synthesis and release of, hepatocytes, C1077
- Guanosine 5'-O-(3-thiotriphosphate), regulation dependent upon, smooth muscle contractile elements, C405
- Guanylate cyclase, ANP actions and, neuronal and astrocyte glial cultures, C1134
- H**
- Heart
- chloride current, cell swelling activation of, C1057
  - congestive failure, sarcolemmal sodium-potassium-ATPase in, C664
  - gap junctions, heptanol-induced uncoupling of, C1531
  - mitochondria, transmembrane gradients of free sodium in, C1047
  - sodium channels in, tetrodotoxin-insensitive, C724
- Heart cells: *see also* Cardiac cells; Myocytes
- cytosolic free magnesium, intracellular pH effects (chicken), C1024
  - membrane conductance, cell swelling effects, C1057
  - ventricular, sodium-calcium exchange-dependent compartment, C1149
- Heat, stress, alterations induced by, autophagic pathway, C1031
- Hepatocytes
- cGMP synthesis and release, nitric oxide biosynthesis relations, C1077
  - extracellular adenosine in, ethanol-induced increase, C1175
  - normal, sensitivity to anoxic cell damage, C1384
- Hepatoma cells
- AS-30D, sensitivity to anoxic cell damage, C1384
  - erythropoietin production, phorbol ester inhibition of, C1204
- Heptanol, uncoupling induced by, cardiac gap junctions, C1531
- Hexose phosphates, muscle during exercise, low glycogen effects, C975
- Histamine
- calcium-dependent chloride secretion and, T84 epithelial cells, C15
  - desensitization induced by, L-type calcium channel, C621
- 5-HT: *see* Serotonin
- Hybridoma, potassium channel response, bradykinin, calcium sensitivity effects, C453
- Hydration, corneal, chloride requirement for, C1167
- Hydrogen
- delivery, intracellular pH dependence of, IEC-6 cells, C164
  - intracellular, contraction and, acidosis in ventricular myocytes, C348
  - transport, medullary thick ascending limb, kidney, C963
- Hydrogen-ATPase, plasma membrane, medullary thick ascending limb, kidney, C963
- Hydrogen ions, intracellular pH effects, heart cells (chicken), C1024
- Hydrogen peroxide
- endothelial cells, cystine uptake and glutathione in, C50
  - inhibition of sodium-potassium-ATPase, renal basolateral membrane, C1364
- Hydroxyl radical, inhibition of sodium-potassium-ATPase, renal basolateral membrane, C1364
- Hyperbilirubinemia, ATP-dependent transport, erythrocyte membrane vesicles, C104
- Hyperoxia
- alkalinization and dome formation, MDCK epithelial cells, C358
  - endothelial cells, cystine uptake and glutathione in, C50
- Hypertension
- juxtaglomerular cells, reconstituted basement membrane, C563
  - renovascular, heart cell relaxation and, C980
  - spontaneous,  $\alpha_1$ -adrenergic receptors in soleus muscle from, C1284
- Hyperthermia, malignant, excitation-contraction coupling and (pig), C422
- Hypertrophy, cardiac, hypertension effects on heart cell relaxation, C980
- Hypochlorous acid, inhibition of sodium-potassium-ATPase, renal basolateral membrane, C1364
- Hypoxia
- endothelial cells, cystine uptake and glutathione in, C50
  - endothelial monolayer permeability, lowering of cellular cAMP levels and, C546
  - glucose transport and, muscle cells, C682
  - mitochondrial ATP-synthase activity, cardiomyocytes, C1297
  - pulmonary vasoconstriction, potassium channels in, C882
- I**
- $I_K$ , modulation by cadmium, ventricular myocytes, C75
- Immunoblots, isoform-specific regions,  $\alpha$ -subunit, sodium-potassium-ATPase, C743
- Immunofluorescence, sodium ion conductance, alveolar pneumocytes, C1228
- Immunoglobulin, secretion, B lymphocyte differentiation cofactor, C537
- Indomethacin, DNA synthesis without cell division, EGF and, C578
- Infarction, myocardial, congestive heart failure due to, sodium-potassium-ATPase activity in, C664
- Inflammation, kidney, epithelial permeability factor, C1403
- Inosine monophosphate, muscle during exercise, low glycogen effects, C975
- D-myo-Inositol, influx of extracellular calcium and, *Xenopus* oocytes, C1456
- Inositol 1,4,5-trisphosphate
- $\alpha$ -adrenergic signal transduction, aging and, C1181
  - calcium oscillations and, parotid acinar cells, C656
- Inositol phosphates, thapsigargin effects, vascular smooth muscle cells, C1258
- Inositol trisphosphate
- influx of extracellular calcium and, *Xenopus* oocytes, C1456
  - turnover, cyclic strain stimulation of, C956
- Insulin
- secretion, lithium effects, pancreatic  $\beta$ -cells, C391
  - stimulation, AIB transport, placental trophoblasts, C834
- Insulin-like growth factor, regulation of permeability, T84 cell monolayer, C207
- Integrins, lymphocyte adhesion, regulation by membrane protein capping, C916
- Interleukin-1 $\beta$
- actin expression and, vascular smooth muscle, C828
  - stimulus-selective modulation, ICAM-1 expression, C365
- Interstitial cells of Cajal, colonic, calcium oscillations in, C589
- Intestinal cells, hydrogen delivery, sodium-hydrogen exchange and, intracellular pH dependence, C164
- Intestine
- calcium absorption, calbindin effects, C517
  - crypt-villus axis, cell differentiation in, protein subunits during, C1478
  - glucose transporter, expression of GLUT5, C795

Iodine-125, efflux, cAMP-activated, Caco-2 cells, C251  
 Ionomycin, calcium-dependent chloride secretion and, T84 epithelial cells, C15

Ions  
 intracellular, activities, microelectrode calibration, C1324  
 transport, rectal gland (shark), C1000, C1009

Ischemia  
 cardiac, ATP-sensitive potassium channel, C1220  
 glucose transport, oxygen and, muscle cells, C682

Isoproterenol, sweat gland secretory coil, two distinct types of epithelial cells, C891

## J

## Junction

## gap

cardiac, heptanol-induced uncoupling of, C1531  
 connexin 43 expression, endothelial cells, C1246

## intercellular

two isoforms of tight junction protein ZO-1, C1119  
 ZO-1 detection in nonepithelial cells, C461

intracellular, permeability, insulin-like growth factor regulation, C207  
 neuromuscular, magnetic field and acetylcholine release, C1418  
 tight, opening of, serum protein and, C1403

Juxtaglomerular cells, cultured, reconstituted basement membrane, C563

## K

6-Ketoprostaglandin, endothelin-1 effects, aorta, C941

## Kidney

aldose reductase gene transcription, osmoregulated, C776  
 apical membrane permeability, bladder granular cells (toad), C1109  
 basolateral membrane, neutrophil inhibition of sodium-potassium-ATPase, C1364

epithelial permeability factor, C1403  
 juxtaglomerular cells, reconstituted basement membrane, C563

## Kidney cells

calcium uptake, volume-activated, C339  
 organic cations in, transcellular transport, C59  
 sodium-potassium-ATPase expression, regulation by hypertonic medium, C845

Kidney medulla, thick ascending limb, plasma membrane sodium-hydrogen antiporter in, C963

Kinase, tetrodotoxin-insensitive sodium channels and, cardiac cell line, C724

## L

Leukemia cells, basophilic, calcium inactivation of inward rectifier in, C84

## Leukocytes

adhesion, thrombin stimulation of, endothelial cells, C199

neutrophil activation, modulation by okadaic acid, C39

Lipid A, activation, glomerular mesangial cells, C328

## Lipids

alterations, magnesium deficiency and, oxidative stress (hamster), C1371  
 brown adipocyte differentiation, adult, C1018

Lipocortin, regulation of annexin I, adipogenesis, C91

Lipolysis, subcellular sites, hepatic, feeding and fasting, C1102

## Lipopolysaccharides

nitric oxide production and, hepatocytes, C1077  
 stimulus-selective modulation, ICAM-1 expression, C365

Lipoxygenase, activation, signal transduction by erythropoietin receptor, C1197

Lithium, mitogenicity, pancreatic  $\beta$ -cells, C391

## Liver

organic anion transport, ATP-dependent transport, C104

protein synthesis, regulation in inflammation and sepsis, C445

sodium-potassium-ATPase  $\alpha$ - and  $\beta$ -isoforms, kinetic properties of, C1491  
 subcellular sites, lipolytic activity at, feeding and fasting, C1102

LLC-PK<sub>1</sub> cells

potential dependence, sodium-glucose cotransporter, C510  
 renal, transcellular transport of organic cations, C59

Lymphocytes, adhesion, regulation by membrane protein capping, C916

## Lysosomes

lipolysis, hepatic subcellular sites, feeding and fasting, C1102  
 stress-induced alterations, C1031

## M

Macrophages, colony-stimulating factor, regulation by peptide growth factors, liver fat-storing cells, C876

## Magnesium

cytosolic free, intracellular pH effects, heart cells (chicken), C1024  
 deficiency, oxidative stress and, erythrocytes (hamster), C1371

Magnesium-ATP, contraction and, glycerinated slow-twitch muscle fibers, C1039

Magnetic field, acetylcholine release and, neuromuscular junction, C1418

Maturation: *see also* Development; Growth  
 meiotic, regulation of sodium-potassium-ATPase isoforms, oocytes, C1520

## MDCK cells

hyperoxia effects, alkalization and dome formation, C358

plasma membrane, sodium-potassium-ATPase processing in, C470

Mechanosensitive currents, stretch-activated, vascular smooth muscle cells, C1083

Mefenamic acid, PDGF-activated nonselective cation channel and, cell proliferation, C1464

Megakaryocytic cells, CHRF-288, thromboxane A<sub>2</sub> response, C991

## Membrane

## apical

vestibular dark cells, potassium channel in (gerbil), C1430  
 vestibular dark cells, cation channel in (gerbil), C1423  
 water and nonelectrolyte permeabilities, bladder (toad), C1107  
 basement, reconstituted, juxtaglomerular cells cultured on, C563

## basolateral

chloride conductance, retinal pigment epithelium (toad), C374  
 neutrophil inhibition of sodium-potassium-ATPase, kidney, C1364  
 potassium channels, verapamil blockade of, larval skin (frog), C1161  
 cell, chemical probes for anion transporters, C803

## microvillous

placenta, calcium uptake by, C789  
 vesicles, biotin transport, placenta, C302

Meromyosin, heavy, skeletal muscle, factors affecting filament motility, C714

Mesangial cells, glomerular, lipid A activation of, C328

6-Methoxy-N-(3-sulfoethyl)quinolinium cell-permeable Cl<sup>-</sup>-sensitive fluorescent indicator, synthesis of, C243  
 chloride transport and, polar airway, C23  
 N-Methyl-D-aspartate, cytosolic calcium via G proteins and, hippocampal neurons, C870

Methylisobutylxanthine, cAMP-independent action of, annexin I in adipogenesis, C91

4-Methylpyrazole, ethanol-induced increase in adenosine and, hepatocytes, C1175

## Microelectrodes

distinct cell types, sweat gland secretory coil, C287  
 ion-selective, calibration of, C1324

Microfluorimetry, sodium-hydrogen exchange, hydrogen delivery and, IEC-6 cells, C164

## Microscopy

confocal, calcium release in cardiac myocytes, C731  
 electron, brown adipocyte differentiation, adult, C1018  
 fluorescence, distribution of actin filament lengths measured by, C569  
 video, goblet cell degranulation, tracheal epithelium, C1313

Migration inhibitory factor, 1 $\alpha$ ,25-(OH)<sub>2</sub> vitamin D<sub>3</sub> effects, C235

Mineralocorticoids, receptors: *see* Receptors

## Models

calcium absorption, intestinal, calbindin effects, C517  
 sweat gland secretory coil, two distinct types of epithelial cells, C891

Molecular physiology, transgenic technology, C261

Monocytes, adhesion, thrombin stimulation of, endothelial cells, C199

## Motility

F-actin filament, factors affecting, skeletal muscle, C714  
 gastrointestinal  
 calcium-dependent regulation of calcium current, C691

- colonic interstitial cells, C589
- Mucin, goblet cell degranulation, tracheal epithelium, C1313
- Mucous granules, ATP, rupture (mollusk), C760
- Muscle
- contraction
    - kinetics of phosphate release in, C1239
    - malignant hyperthermia (pig), C422
    - fast- and slow-twitch, sepsis effects on protein synthesis, C1513
    - fatigue, semitendinosus (frog), C1500, C1507
    - low glycogen effects, carbohydrate and energy metabolism, during exercise, C975
    - mRNA distribution, hybridization studies, C1
    - neonatal and adult, high-fat diet effects, C282
    - quadriceps, exercise-induced desaturation, C766
    - semimembranosus, magnesium-ATP concentration effects, C1039
- Muscle, heart
- acidosis, intracellular ions in, C348
  - development, sarcoplasmic reticulum gene expression during, C614
  - sepsis effects, protein synthesis, C1513
  - ventricular, intracellular pH and tension development relations, C316
- Muscle, skeletal
- atrophy, glucocorticoid-induced, mechanical stimulation and, C1471
  - contraction, malignant hyperthermia (pig), C422
  - development, sarcoplasmic reticulum gene expression during, C614
  - glucose transport, exercise training effects, C9
  - heavy meromyosin, factors affecting filament motility, C714
  - red, glutamine synthetase expression in, exercise effects, C214
  - slow- and fast-twitch fibers, sodium current density in, C229
  - spontaneous hypertension,  $\alpha_1$ -adrenergic receptors in, C1284
- Muscle, smooth
- actin-myosin interaction, polylysine activation of, C1446
  - aortic smooth, 5-HT<sub>2</sub> receptor mRNA in, C309
  - calcium-activated potassium channels in, U46619 inhibition of (pig), C708
  - contractile elements, GTP $\gamma$ S-dependent regulation, C405
  - gastric, calcium-dependent regulation of calcium current, C691
  - skinned, contractility of, myosin kinase inhibiting peptide effects, C1437
  - vascular
    - actin expression, interleukin-1 $\beta$  alteration of, C828
    - carotid, cross-bridge phosphorylation in (swine), C1388
    - norepinephrine-induced phosphatidylcholine hydrolysis, C1376
    - SM1 and SM2 myosin isoform expression in, C607
    - staurosporine effects on endothelin-1 stimulation, C862
    - thromboxane receptors, growth factor downregulation of, C927
- Muscle cells
- aortic smooth, DNA synthesis, EGF and, C578
  - ciliary, electrogenic sodium-bicarbonate cotransport, C427
  - glucose transport, oxygen and, C682
  - vascular smooth
    - endothelin-induced calcium responses, C148
    - stretch-activated currents in, C1083
    - thapsigargin stimulation of calcium entry, C1258
- Muscle fibers
- O-trans conditions, L-glutamate influx kinetics (barnacle), C1485
  - slow-twitch, glycerinated, MgATP concentration and, C1039
- Myocardium
- sodium-calcium exchange, characterization (trout), C411
  - sodium-potassium-ATPase, thyroid hormone regulation of, C484
- Myocytes: see also Cardiac cells; Heart cells
- ATP-synthase activity, mitochondrial, after aerobic-anaerobic metabolic transition, C1297
  - calcium release, confocal microscopy, C731
  - relaxation, hypertension effects, C980
  - signal transduction in, cAMP and ATP synergism in, C128
  - sodium-potassium-ATPase, thyroid hormone regulation of, C484
  - ventricular
    - acidosis in, intracellular ions and, C348
    - citrate alteration of calcium channel gating, C191
    - developmental increases in potassium current in, C1266
    - intracellular pH and tension development relations, C316
    - modulation of  $I_K$  by cadmium, C75
- Myoepithelial cells, distinct types, sweat gland secretory coil, C287
- Myometrial cells, progesterone effects, calcium ion currents, C293
- Myosin
- actin interaction, polylysine activation of, smooth muscle, C1446
  - mRNA distribution, hybridization studies, muscle, C1
  - phosphorylation
    - contractility and, skinned smooth muscle, C1437
    - smooth muscle, GTP $\gamma$ S-dependent regulation, C405
- Myosin isoforms, SM1 and SM2, differential expression, vascular smooth muscle, C607
- Myosin light chain, actin expression, interleukin-1 $\beta$  alteration of, thoracic aorta, C828
- N
- Nasal epithelium, bradykinin effects, sodium and chloride transport, C644
- Neonate
- developmental increase in potassium current, ventricular myocytes, C1266
  - muscle, high-fat diet effects, C282
- Neurons
- cultures, ANP receptors in, C1134
  - hippocampal, NMDA increases cytosolic calcium via G proteins, C870
  - sensory, potassium channel response to bradykinin, C453
- Neutrophils
- activation, modulation by okadaic acid, C39
  - inhibition of sodium-potassium-ATPase, renal basolateral membrane, C1364
- Nitric oxide, biosynthesis, hepatocytes, C1077
- NMDA: see N-Methyl-D-aspartate
- Nonepithelial cells, ZO-1 detection in, C461
- Nonsteroidal anti-inflammatory drugs, PDGF-activated nonselective cation channel and, cell proliferation, C1464
- Norepinephrine
- phosphatidylcholine hydrolysis induced by, tail artery, C1376
  - potentiation, myocyte response to ATP, C128
- Nuclear magnetic resonance, <sup>23</sup>Na-, cation cotransport, erythrocytes, C1202
- Nucleosides, uptake, ethanol metabolism and, extracellular adenosine in hepatocytes, C1175
- Nucleotides, cyclic, tyrosine phosphorylation and, platelets, C701
- Nutrients, deprivation, alterations induced by, autophagic pathway, C1031
- Nutrition, fetal, calcium uptake, microvillous membrane of placenta, C789
- Nystatin, heptanol-induced uncoupling, cardiac gap junctions, C1531
- O
- Okadaic acid
- desensitization induced by, L-type calcium channel, C621
  - modulation, neutrophil activation, C39
- Oligomycin, mitochondrial ATP-synthase activity and, hypoxic cardiomyocytes, C1297
- Omeprazole, hydrogen transport and, medullary thick ascending limb, kidney, C963
- Oocytes, *Xenopus*
- influx of extracellular calcium, inositol trisphosphate and, C1456
  - ion currents stimulated by cAMP, C783
  - maturation, progesterone-induced, C1520
- Osmoregulation, sodium-potassium-ATPase expression, hypertonic medium, kidney cells, C845
- Osteoblasts, intracellular pH regulation of, calcium and cAMP messenger systems in, C111
- Ouabain
- binding, A6 cells, aldosterone effects, C899
  - inhibition, sodium-potassium-ATPase  $\alpha$ - and  $\beta$ -isoforms, liver, C1491
- Oxidative metabolism, inhibition of, enhancement of glucose transport and, C527
- Oxygen
- delivery, exercise-induced desaturation, quadriceps, C766
  - glucose transport and, muscle cells, C682
  - sensing, erythropoietin production, hepatoma cells, C1204
  - stress, susceptibility to, magnesium-deficient erythrocytes (hamster), C1371

Oxygen radicals, inhibition of sodium-potassium-ATPase, renal basolateral membrane, C1364

# P

Pancreas, subcellular fractions, low molecular mass GTP-binding proteins in, C493

Pancreatic acini, subcellular fractions, low molecular mass GTP-binding proteins in, C493

Pancreatic cells,  $\beta$ -, lithium mitogenicity in, C391

Pancreatic epithelial cells, chloride channels, cAMP-activated, C1154

Parotid acinar cells  
calcium oscillations in, inhibition by calcium-ATPase, C656  
cation-permeable pathways in, ATP activation of, C934

Parotid gland, altered coupling of G protein, aging, C1181

PDGF: see Platelet-derived growth factor

# Peptides

DIDS-binding, membrane protein from T84 cells, C136  
myosin kinase inhibiting, contractility of skinned smooth muscle, C1437  
synthetic, cystic fibrosis transmembrane regulator, antibodies against, C396

# Permeability

anion, cystic fibrosis effects, C32  
anion transporters, chemical probes for, cell membranes, C803  
chloride, volume-activated, kidney cells, C339  
epithelial factor, serum protein and, C1403  
potassium, volume-activated, kidney cells, C339  
T84 cell monolayer, insulin-like growth factor regulation of, C207  
water and nonelectrolytes, apical membranes, bladder granular cells (toad), C1109

# pH

basolateral sodium-hydrogen antiporter, uncoupled transport produces conductance (turtle), C1089  
contraction and, acidosis in ventricular myocytes, C348  
intracellular  
ciliary muscle cells, C427  
cytosolic free magnesium and, heart cells (chicken), C1024  
domes in epithelial monolayers, C358  
during sodium cyanide metabolic inhibition, C628  
hydrogen transport, medullary thick ascending limb, kidney, C963  
muscle fatigue and, semitendinosus (frog), C1507  
regulation, calcium and cAMP messenger systems, osteoblasts, C111  
regulation in zona glomerulosa cells, C182  
salt gland cells (duck), C221  
sodium-hydrogen exchange and hydrogen delivery, IEC-6 cells, C164  
tension development relations, ventricular muscle and myocytes, C316  
Phalloidin, actin depolymerization induced by, bladder granular cell (toad), C672

Phenylephrine, desensitization induced by, L-type calcium channel, C621  
N-Phenylmaleimide, actions, volume-responsive sodium and potassium transport, red cells, C418

# Phorbol esters

calcium-dependent chloride secretion and, T84 epithelial cells, C15  
erythropoietin production and, hepatoma cells, C1204  
granulocyte-macrophage colony-stimulating factor binding, tyrosine phosphorylation and, C276  
stimulus-selective modulation, ICAM-1 expression, C365

Phorbol 12-myristate 13-acetate capping induced by, lymphocyte adhesion and, C916

granulocyte-macrophage colony-stimulating factor binding, tyrosine phosphorylation and, C276

Phosphate, release, kinetics of, skinned soleus muscle fibers, C1239

Phosphatidic acid, lipid A activation, glomerular mesangial cells, C328

Phosphatidylcholine, hydrolysis, norepinephrine-induced, tail artery, C1376

Phosphatidylethanol, activation by endothelin-1, aorta, C941

Phospholamban, developmental regulation, sarcoplasmic reticulum, C614  
Phospholipase D, activation by endothelin-1, aorta, C941

# Phospholipases

activation of, signal transduction by erythropoietin receptor, C1197  
phosphatidylcholine hydrolysis by, norepinephrine-induced, tail artery, C1376

Phospholipid bilayers, planar, trypsin effects on potassium channels, C971

Phosphorylation, cross-bridge, steady-state dependence, carotid media (swine), C1388

Phylogenetic conservation, isoform-specific regions,  $\alpha$ -subunit, sodium-potassium-ATPase, C743

Pituitary cells, GH<sub>3</sub>, L-type calcium channel activity in, protein kinase C effects, C1211

# Placenta: see also Fetus

brush-border membrane vesicles, dopamine transport in, C1189  
microvillous membrane, calcium uptake, C789

microvillous membrane vesicles, biotin transport in, C302  
trophoblast, insulin stimulation of AIB uptake, C834

# Platelet-derived growth factor

nonselective cation channel activated by, cell proliferation and, C1464  
production, thrombin stimulation of, endothelial cells, C199  
regulation of macrophage colony-stimulating factor, liver fat-storing cells, C876

Platelets, tyrosine phosphorylation induced by thrombin or ADP, inhibition by sodium nitroprusside, C701

Pneumocytes, alveolar, sodium ion conductance in, C1228

# Polyamines

content, lithium effects, pancreatic  $\beta$ -cells, C391

putrescine uptake and, gastrointestinal epithelial cells, C1356

Polylysine, activation, actin-myosin interaction, smooth muscle, C1446

# Potassium

permeability: see Permeability  
secretion

apical membrane, vestibular dark cells (gerbil), C1423, C1430  
colonic epithelium, C1392

# transport

calcium-induced, spontaneous hypertension, soleus muscle, C1284  
volume-activated, red cells, C418

# Potassium channels

ATP-sensitive, basal coronary vascular tone and, C1220  
basolateral, verapamil blockade of, larval skin (frog), C1161  
cadmium modulation of  $I_K$ , ventricular myocytes, C75  
calcium-activated  
responses to bradykinin, sensory neurons and F-11 cells, C453  
trypsin effects, planar phospholipid bilayers, C971  
U46619 inhibition of, coronary artery (pig), C708  
inhibition, hypoxic pulmonary vasoconstriction, C882  
inwardly rectifying, calcium-dependent inactivation of, tumor mast cell line, C84  
maxi, apical membrane, vestibular dark cells (gerbil), C1430  
metabolic responses and, brown fat cells, C678  
patch clamping, ciliary epithelial cells, C501  
Potassium channel blockers, chondrocytes, growth plate (chicken), C1335  
Potassium chloride, desensitization induced by, L-type calcium channel, C621  
Potassium currents  
delayed rectifier, growth plate chondrocytes (chicken), C1335  
inwardly rectifying, developmental increases in, ventricular myocytes, C1266

# Potentials

action, development increase, ventricular myocytes, C1266  
diffusion, T84 cells, C555  
electrical, corneal endothelial cell monolayers, C98  
intracellular, cystic fibrosis affects anion selectivity, C32  
membrane, ciliary muscle cells, C427  
citrate alteration of calcium channel gating, C191  
sweat gland secretory coil, C891  
volume-activated calcium uptake, kidney cells, C339  
resting membrane, spontaneous hypertension, soleus muscle, C1284  
transmembrane, ATP-sensitive potassium channel, coronary flow and, C1220

Progesterone, calcium ion currents and, myometrial cells, C293

# Prostaglandins

desensitization induced by, L-type calcium channel, C621

- DNA synthesis without cell division, EGF and, C578
- potassium and chloride secretion, colonic epithelium, C1392
- Prostaglandin  $E_1$ , inhibition of tyrosine phosphorylation, platelets, C701
- Prostanoid, calcium-activated potassium channels and, coronary artery (pig), C708
- Protein
- calcium binding,  $1\alpha,25-(OH)_2$  vitamin  $D_3$  enhancement of, C235
  - capping, regulation of lymphocyte adhesion, C916
  - GTP-binding, pancreas, C493
  - guanine nucleotide-binding, phorbol ester inhibition of, C276
  - membrane, anion transporters, chemical probes for, C803
  - muscle, distribution of actin filament lengths, C569
  - phosphorylation, smooth muscle, GTP- $\gamma$ S-dependent regulation, C405
  - serum, epithelial permeability factor, C1403
  - synthesis
    - hepatic, regulation in inflammation and sepsis, C445
    - sepsis-induced changes, fast- and slow-twitch muscles, C1513
    - without cell division, EGF inducement of, C578
- Proteinase, sodium-calcium exchange, myocardial (trout), C411
- Protein kinase
- calcium-calmodulin-dependent, cystic fibrosis airway epithelial cells, C1273
  - cGMP-dependent regulation, chloride channel, T84 cells, C1304
  - inhibitors, effects on endothelial ICAM-1 induction, C365
  - neutrophil activation and, C39
- Protein kinase C
- activation, L-type calcium channel activity and,  $GH_3$  pituitary cells, C1211
  - calcium-dependent chloride secretion and, T84 epithelial cells, C15
  - calcium/phospholipid-dependent, endothelial ICAM-1 induction, C365
  - chloride transport and, polar airway, C23
  - cytosolic calcium via G proteins and, hippocampal neurons, C870
  - endothelin-1 stimulation, staurosporine effects, arterial muscle, C862
  - erythropoietin production and, hepatoma cells, C1204
  - inhibitors of, sodium-nutrient regulatory volume decrease and, C950
  - membrane capping, regulation of lymphocyte adhesion, C916
- Protein subunits,  $G_s$  and  $G_i$ , cell differentiation in intestinal crypt-villus axis, C1478
- Protein ZO-1, tight junction, two isoforms of, differential expression, C1119
- Psoas muscle, glycerinated, magnesium-ATP concentration effects, C1039
- Pump
- sodium
    - hypertonic medium effects, kidney cells, C845
    - kinetic properties, liver, C1491
    - myocardial, thyroid hormone regulation of, C484
    - plasma membrane, MDCK cells, C470
  - sodium-potassium, isoform-specific regions within, C743
- Putrescine, uptake, calcium/calmodulin regulation of, gastrointestinal epithelial cells, C1356
- Q**
- Quinidine, anisomotic swelling, ciliary epithelial cells, C501
- R**
- RBL-2H3 cells, inward rectifier in, calcium inactivation of, C84
- Receptors
- adenosine, effect on cAMP and calcium, mesangial cells, C840
  - $\alpha_1$ -adrenergic
    - appearance in soleus muscle from spontaneous hypertension, C1284
  - G protein, altered coupling, parotid gland, C1181
  - aldosterone, brain microvessels, C156
  - ANP, neuronal and astrocyte glial cultures, C1134
  - corticosteroid, brain microvessels, C156
  - erythropoietin, signal transduction by, C1197
  - $P_2$  purinergic, epidermoid carcinoma cells, C635
  - purinergic
    - action of cation channel by, C934
    - activation of chloride secretion, T84 cells, C67
  - ryanodine, developmental regulation of sarcoplasmic reticulum, C614
  - serotonin, mRNA, aortic smooth muscle cells, C309
  - thromboxane, growth factor downregulation of, vascular smooth muscle, C927
- Rectal gland, sodium-potassium-chloride cotransport in (shark), C1000, C1009
- Red blood cells: see Erythrocytes
- Resistance, electrical, corneal endothelial cell monolayers, C98
- Respiration, mitochondrial, ATP-synthase activity, hypoxic cardiomyocytes, C1297
- Retinal pigment epithelium, chloride conductance, basolateral membrane (toad), C374
- Retrosome, lipolysis, hepatic subcellular sites, feeding and fasting, C1102
- Rhodamine, actin depolymerization induced by, bladder granular cell (toad), C672
- Ribonucleic acid
- hepatic, regulation in inflammation and sepsis, C445
  - messenger
    - intracellular distribution of, muscle, C1
  - myocardial sodium-calcium exchange (trout), C411
  - sepsis effects, protein synthesis, muscle, C1513
- S**
- Salt gland cells, ion secretion, intracellular pH changes and (duck), C221
- Sarcolemma
- calcium bound to, ventricular cells, C1149
  - slow- and fast-twitch muscle fibers, sodium current density in, C229
  - sodium-potassium-ATPase activity, congestive heart failure, C664
- Sarcomere, dynamics, hypertension effects on heart cell relaxation, C980
- Sarcoplasmic reticulum
- calcium influx, thapsigargin stimulation, smooth muscle cells, C1258
  - gene expression, developmental regulation of, C614
- SCH 28080, hydrogen transport and, medullary thick ascending limb, kidney, C963
- Secretory granules, calcium binding and aggregation, proANF, C907
- Semicircular canal
- calcium-activated cation channel, apical membrane, vestibular dark cells (gerbil), C1423
  - potassium channel, apical membrane, vestibular dark cells (gerbil), C1430
- Semitendinosus muscle, fatigue, contractile function and (frog), C1500, C1507
- Sepsis
- changes induced by, protein synthesis, muscles, C1513
  - chronic inflammation and, hepatic protein synthesis regulation in, C445
- Serpin genes, regulation, discoordinate hormonal and ontogenetic, C1144
- Shear stress, fluid, cytosolic free calcium modulation, vascular endothelial cells, C384
- Shock, septic, transcriptional regulation of endothelin-1 gene by TNF- $\alpha$ , C854
- Shortening, maximal velocity of, fatigue, semitendinosus muscle (frog), C1500, C1507
- Signal transduction
- gangliosides, modulators of cell function, C1341
  - phosphatidylcholine hydrolysis, norepinephrine-induced, tail artery, C1376
- Skin, larval, verapamil blockade of potassium channels (frog), C1161
- Sodium
- binding, potential dependence of sodium-glucose cotransporter, C510
  - effluxes, ouabain-sensitive, erythrocytes,  $^{23}\text{Na}$ -NMR study of, C1292
  - free, transmembrane gradients of, heart mitochondria, C1047
  - intracellular, contraction and, acidosis in ventricular myocytes, C348
  - transport
    - bradykinin effects, nasal epithelium, C644
    - volume-activated, red cells, C418
  - uncoupled transport, amiloride-sensitive conductance and (turtle), C1089
- Sodium-bicarbonate cotransport, electrogenic, ciliary muscle cells, C427
- Sodium-calcium exchange
- compartment, ventricular cells, C1149
  - myocardial, characterization (trout), C411
  - myoplasmic concentration, cross-bridge phosphorylation, carotid media (swine), C1388
- Sodium channels
- conductance, alveolar pneumocytes, C1228
  - tetrodotoxin-insensitive, cardiac cell line, C724

Sodium chloride, dependence, dopamine transport, placenta, C1189  
 Sodium currents, density, skeletal muscle fibers, slow- and fast-twitch, C229  
 Sodium cyanide, metabolic inhibition, calcium ions and intracellular pH during, C628  
 Sodium-glucose cotransporter, potential dependence of, sodium binding to, C510  
 Sodium-hydrogen antiport  
   basolateral, uncoupled sodium transport (turtle), C1089  
   cDNAs, cloning, sequencing, and expression of, C1069  
   endothelin-induced responses, vascular smooth muscle cells, C148  
   mitochondrial, heart, C1047  
   plasma membrane, medullary thick ascending limb, kidney, C963  
 Sodium-hydrogen exchange  
   G protein stimulation of, cell shrinkage and, C533  
   hydrogen delivery and, intracellular pH dependence of, IEC-6 cells, C164  
   intracellular pH changes, ion secretion and, salt gland cells (duck), C221  
 Sodium ions, conductance, alveolar pneumocytes, C1228  
 Sodium nitroprusside, inhibition of tyrosine phosphorylation, platelets, C701  
 Sodium-potassium-ATPase  
   aldosterone effects and, ouabain binding, A6 cells, C899  
    $\alpha$ - and  $\beta$ -isoforms, determination in liver, C1491  
   isoforms, regulation during meiotic maturation, oocytes, C1520  
   myocardial, thyroid hormone regulation of, C484  
   neutrophil inhibition of, renal basolateral membrane, C1364  
   regulation of expression, incubation in hypertonic medium, kidney cells, C845  
   sarcolemmal activity, congestive heart failure, C664  
    $\alpha$ -subunit of, isoform-specific regions within, C743  
   synthesis and translocation of, plasma membrane in MDCK cells, C470  
 Sodium-potassium-chloride, regulation, vascular cell volume, C436  
 Sodium-potassium-chloride cotransport, rectal gland (shark), C1000, C1009  
 Sodium-potassium transport, mechanisms, erythrocytes,  $^{23}\text{Na}$ -NMR study of, C1292  
 Soleus muscle  
   glucose transport, exercise training effects, C9  
   glycerinated, magnesium-ATP concentration effects, C1039  
   neonatal and adult, high-fat diet effects, C282  
   sepsis effects, protein synthesis, C1513  
   skinned fibers, kinetics of phosphate release in, C1239  
   spontaneous hypertension,  $\alpha_1$ -adrenergic receptors in, C1284  
 Sorbitol, aldose reductase gene transcription, kidney, C776  
 Staurosporine  
   endothelin-1 effects, aorta, C941

endothelin-1 stimulated arterial muscle and, C862  
 regulatory volume decrease and, after L-alanine cotransport, C950  
 Steroids, ovarian, calcium ion currents and, myometrial cells, C293  
 Stress  
   alterations induced by, autophagic pathway, C1031  
   osmotic, aldose reductase gene transcription, kidney, C776  
   shear, flow-induced calcium transients, endothelial cells, C1411  
 Structure-activity relations, anion transporters, chemical probes for, cell membranes, C803  
 Substance P, B lymphocyte differentiation cofactor, C537  
 Sugar, transport, sodium-coupled, C510  
 Sulfonyleureas, ATP-sensitive potassium channel, coronary flow and, C1220  
 Superoxide  
   endothelial cells, cystine uptake and glutathione in, C50  
   neutrophil activation, okadaic acid modulation, C39  
 Superoxide anion, inhibition of sodium-potassium-ATPase, renal basolateral membrane, C1364  
 Sweat duct cells, cystic fibrosis effects, reversed anion selectivity, C32  
 Sweat gland  
   secretory coil  
   electrophysiologically distinct cell types in, C287  
   two distinct types of epithelial cells, C891  
 Swelling, anisotonic, ciliary epithelial cells during, C501

## T

Tail artery, phosphatidylcholine hydrolysis, norepinephrine-induced, C1376  
 T84 cells  
   chloride channel, cGMP-dependent protein kinase regulation of, C1304  
   chloride secretion, regulated endocytosis, C752  
   DIDS-binding protein from, identification of, C136  
   monolayer, regulation of permeability, insulin-like growth factors and, C207  
   transepithelial anion selectivity of, C555  
 Temperature, dependence, myocardial sodium-calcium exchange (trout), C411  
 Tetraethylammonium  
   hypoxic inhibition, potassium channels, C882  
   potassium channel block, brown fat metabolism and, C678  
   transport, renal epithelial cell line LLC-PK<sub>1</sub>, C59  
 1,3,4,5-Tetrakisphosphate, influx of extracellular calcium and, *Xenopus* oocytes, C1456  
 Tetrodotoxin, sodium channels insensitive to, cardiac cell line, C724  
 Thapsigargin  
   calcium entry and, vascular smooth muscle cells, C1258  
   inhibition of calcium oscillations, parotid acinar cells, C656

intracellular calcium pool, regulation of calcium entry and, endothelial cells, C171  
 Thermogenesis, brown fat, potassium channel block effects, C678  
 Thiocyanate, actions, volume-responsive sodium and potassium transport, red cells, C418  
 Thrombin  
   PDGF production, monocyte adhesion and, endothelial cells, C199  
   tyrosine phosphorylation induced by, platelets, inhibition by sodium nitroprusside, C701  
 Thromboxane, receptors: *see* Receptors  
 Thromboxane A<sub>2</sub>, regulation of response, CHRF-288 megakaryocytic cells, C991  
 Thromboxane A<sub>2</sub> agonist, calcium-activated potassium channels and, coronary artery (pig), C708  
 Thyroid hormone, regulation, myocardial sodium-potassium-ATPase, C484  
 TNF- $\alpha$ : *see* Tumor necrosis factor- $\alpha$   
 Trachea  
   chloride transport, hormonal regulation of, C23  
   epithelium, goblet cell degranulation in, C1313  
 Transgenes, technology, cell physiology investigation using, C261  
 Triacylglycerol lipase, lipolysis, hepatic subcellular sites, feeding and fasting, C1102  
 Tricarboxylic acid cycle intermediates, glycogen and, muscle during exercise, C975  
 Triglycerides, brown adipocyte differentiation, adult, C1018  
 Trophoblasts  
   placenta, biotin transport in, C302  
   placental, insulin stimulation of AIB uptake, C834  
 Trypsin, calcium-activated potassium channel, planar phospholipid bilayers, C971  
 Tumor necrosis factor- $\alpha$   
   stimulus-selective modulation, ICAM-1 expression, C365  
   transcriptional regulation, endothelin-1 gene, C854  
 Tyrosine, phosphorylation, phorbol ester inhibition of, C276  
 Tyrosine phosphorylation, inhibition by sodium nitroprusside, platelets, C701

## U

U46619, calcium-activated potassium channels and, coronary artery (pig), C708  
 Umbilical artery, calcium responses, endothelin-induced, C148  
 Urinary bladder  
   granular cells  
   ADH-induced actin depolymerization in (toad), C672  
   apical membranes, water and nonelectrolyte permeabilities (toad), C1109  
 V  
 Vanadate, hydrogen transport and, medullary thick ascending limb, kidney, C963

Vascular barrier, function, endothelium, hypoxia effects, C546  
Vasoconstriction, hypoxic pulmonary, potassium channels in, C882  
Vasoconstrictors, growth factor downregulation, vascular smooth muscle, C927  
Vasopressin: *see also* Antidiuretic hormone  
actin depolymerization induced by, bladder granular cell (toad), C672  
Verapamil  
basolateral potassium channels and, larval skin (frog), C1161  
tetrodotoxin-insensitive sodium channels and, cardiac cell line, C724  
Vestibular dark cells  
apical membrane of  
calcium-activated nonselective cation channel in (gerbil), C1423  
maxi potassium channel in (gerbil), C1430  
Vitamin D<sub>3</sub>, 1 $\alpha$ ,25-(OH)<sub>2</sub>, MRP-8 and MRP-14 expression, C235

Vitamin E, magnesium-deficiency and, oxidative stress, erythrocytes (hamster), C1371  
Volume  
calcium uptake activated by, kidney cells, C339  
cell, vascular, sodium-potassium-chloride regulation of, C436  
regulation  
anisomotic swelling, ciliary epithelial cells, C501  
G protein stimulation of cell shrinkage, C533  
sodium and potassium transport, red cells, C418  
regulatory decrease, sodium-nutrient, protein kinase C inhibitors and, C950

## W

Weaning, serpin genes, discoordinate hormonal and ontogenetic regulation, C1144

## X

Xanthine oxidase, endothelial cells, cystine uptake and glutathione in, C50

## Y

Yeast cells, cystic fibrosis, antibodies against, C396

## Z

ZO-1, tight junction-associated protein, detection in nonepithelial cells, C461  
Zona glomerulosa cells  
adrenal, calcium channels and cytosolic calcium in, C598  
intracellular pH regulation in, C182  
Zonula occludens  
intercellular junction, two isoforms of tight junction protein ZO-1, C1119  
ZO-1 protein associated with, detection in nonepithelial cells, C461
